

Time to Research

Name:

Date:

Do you know what Thomas Edison (inventor), Van Gogh (artist) and Neil Young (singer/musician) all have in common? You guessed it! They all have epilepsy AND they all achieved greatness!

It is time to do some RESEARCH! Can you find other famous people who also live with epilepsy?
Were they an inventor, an athlete, a musician?
The list is endless!

Activity Directions: Research and learn about a famous person who is living with epilepsy and then list them below. Below are some questions for you to consider when collecting your information.

What did this person accomplish that made them well known?

What qualities do they have that you like? Why?

What accomplishments have they been able to achieve in their life?

What makes their journey with living with epilepsy unique? Why?

What type of epilepsy are they living with?

What kind of seizures do they experience?

Did living with epilepsy limit them from doing what they wanted to do?
